

Will That Volcano Spoil Our Party?

This optional grading rubric is provided for your convenience. You may use either the one that came with the original activity or this one.

Instructions:

I have set this up as a percentage based rubric so that you can use whatever total points you want. I usually include a rubric with the project assignment sheets that my students get so that they know how they are being graded. I have, however, made it separate from the worksheet in case you do not want to use it or include it. If you want to use it and let the students see it then you might want to copy it onto the back of the project sheets.
